Experience

Software Engineer, Claysys Technologies - Kochi April 2023 – present

- Designed, implemented and maintained **secure and scalable RESTful APIs** for banking operations using **ASP.NET Core Web API** and **Entity Framework**.
- Developed and maintained a **Symitar-based web application** for the banking operations, enhancing functionality and user experience.
- Worked on **fetching, processing, and transforming data** from third-party APIs using **ASP.NET Core Web API**, including **filtering and manipulation** as per business requirements.
- Worked on feasibility endpoints for **fetching and processing HTML-formatted data**, implemented functionalities to **export data to Excel**
- Worked on migrating APIs from **ADO.NET to Entity Framework**, ensuring seamless data access and improved maintainability.
- Front-End Development: Proficient in React, JavaScript, HTML, and CSS for building responsive and user-friendly interfaces.
- Back-End Development: Expertise in .NET Core .NET 8, C#, and WebAPI for robust server-side solutions.

Education

Karpagam College of Engineering, B.Tech Information Technology 2019 – 2023

- CGPA: 8.47

Projects

Employee Training Portal

- **Employee Training Portal**
Developed a web application for employee training management. The platform allows admins to assign tasks to employees, track progress, and evaluate performance. Admins can assign tasks, monitor completion, and assign points based on task performance. Final evaluations are exported to Excel for reporting.
- Technology Stack: React,CSS,Bootstrap, Firebase authentication,ASP.NET Core Web API ,SQL

Personal Portfolio

- Built a responsive personal portfolio using React to showcase skills, projects, and experience. Implemented interactive components and optimized for both desktop and mobile views.
- Technology Stack: React,CSS,Bootstrap,Email.js,github

CocoMart Selling

- Developed an e-commerce platform for selling coconuts using ASP.NET Core for the backend and React for the frontend. The application allows users to browse products, place orders, track shipments, and complete offline payments.
- Technology Stack: React,CSS,Bootstrap,ASP.NET Core Web API ,SQL

Technologies

Languages: C#, JavaScript, SQL

Technologies: HTML, CSS, Bootstrap, JavaScript, React, ASP.NET Core Web API, ADO.NET, Entity Framework, Microsoft SQL Server

Certification: Frontend Development Certificate - SkillUp by Simplilearn.
