EXPERIENCE

Software Engineer

April 2023 – Present

Claysys Technologies

Kochi

- Designed, implemented, and maintained secure, scalable RESTful APIs for banking operations using ASP.NET Core Web API and Entity Framework.
- Secured APIs with JWT authentication, role-based authorization, and API versioning.
- Developed and maintained a Symitar-based web application for banking operations, enhancing functionality and user experience.
- Integrated Swagger/OpenAPI for comprehensive API documentation and testing.
- Built data ingestion pipelines to fetch, process, and transform data from third-party APIs, applying business-rulebased filtering and transformations.
- Implemented feasibility APIs to parse HTML-based data and enable structured data processing with Excel export functionality.

PROJECTS

Banking Credit Unions

- Developed and maintained **ASP.NET Core Web APIs (.NET 8)** for an enterprise **Member 360 application**, implementing RESTful services for member profiles, engagement settings, products, accounts, and notes using clean architecture.
- Integrated **Symitar Core Banking System** to securely retrieve and persist member data, including memberships, shares, loans, and credit/debit card details, ensuring efficient, non-blocking API operations.
- **Tech Stack:** .NET 8 | ASP.NET Core Web API | SQL | Symitar

Commercial Banking

- Integrated a **third-party banking analytics platform (Sageworks)** by developing backend services to synchronize customers, loans, and workflows, enabling seamless data exchange and automated processing between internal and external systems.
- Designed and implemented secure API endpoints for the Sageworks integration, ensuring compliance with data privacy and banking regulations.
- **Tech Stack:** .NET 8 | ASP.NET Core Web API | SQL

Personal Blog

- Built a responsive personal portfolio using React to showcase skills, projects, and experience. Implemented interactive components and optimized for both desktop and mobile views. **Portfolio Website**

EDUCATION

Karpagam College of Engineering

Aug 2019 – Apr 2023

B.Tech in Information Technology

Coimbatore, India

- **CGPA:** 8.47

SKILLS

Languages: React, ASP.NET Core Web API, ADO.NET, Entity Framework, Microsoft SQL Server

Tools: Visual Studio 2022, Visual Studio Code, Git, Azure

Certification: Certificate of Merit – Claysys Technologies
